

I cannot believe that the Federal Government wants to overturn or weaken New Jersey's Do Not Call Law. I personally feel that the Federal Law is not stringent enough and that New Jersey's is better. I do not think that the telemarketers have any rights to violate my privacy, home and time with their useless calls.

Businesses want the right to contact me even though I am on the Do Not Call list just because I have done business with them in the last 18 months. I vehemently disagree with them. I feel that since I have done business with them in the past that if I want to do business with them again in the future that I can contact them at that time.

I do not tolerate any telemarketing calls at my house, including calls from charities or political entities and feel that all telemarketing should be banned in its entirety.

Please do not overturn New Jersey's law.
